Application

Applications

SI-500RT (Round Tub) was specially designed for Asian customers in China, Malaysia and Japan for the usage in chemical treatment and processing of prawns. Now it is used globally for in-house soaking, storage and chemical treatment of seafood. The special design help in to fix the stirrer and at the same time keep the lid closed to protect it from contamination. It consumes 60% less ice from the conventional method, easy movable with forklift or pallet jack and stackable.

Salient Features

- Unique in-house design and construction for durability
- Use of certified Fit For Food (3F) Raw Material and virgin
- Raw material with the highest quality check, purity and UV stability
